Foreword

GREETINGS TO OUR MANY FRIENDS AND CUSTOMERS:

Since we purchased SMITH GARDENS, June 1952, we are amazed at the many thousands of customers who depend on us for nursery and garden plants. We are proud to have you as customers and want to take care of your needs to the best of our ability.

Geographically, we are the largest nursery in Northern Idaho and our stock is hardy and ideally acclimated to conditions that exist across the Northern United States. Soil and moisture conditions are such that with our watering system we give the plants the proper amount of water for proper growing.

We have decided that one of your biggest problems in ordering is that of postage. To relieve you of this problem, since we realize it is hard to determine the correct amount to include, we are adopting a new policy of prepaying all stock in this catalogue (unless otherwise marked) providing your order totals three dollars (\$3.00) or more. On all orders for less than \$3.00 please include fifty cents (50c) for packing and handling.

We are not issuing an expensive color catalogue since we feel what you want is not pictures, but good stock, reasonably priced and without costs inflated.

Look over our catalogue carefully; you will find many money saving specials listed. We cannot accept orders from old catalogues or for stock not listed in our Spring 1953 book.

We do not issue a separate wholesale catalogue but from time to time we do have surplus stock of many items on which we can quote prices to trade only. If you are a dealer, please write for wholesale prices and quote your needs.

LOCAL CUSTOMERS: We plan to be open for trade on Sundays during the Spring planting season. However, we cannot dig evergreens on Sunday but do try to have sufficient stock dug to take care of your needs. Chrysanthemum orders for Sunday delivery must be submitted several days in advance.

Hardy English Chrysanthemums

Many exciting new colors and improved habits of growth and flowering have been brought to Chrysanthemums as a result of the devoted work of skilled hybridizers. Colors and forms undreamed of a few years ago are now found in these garden flowers. This year we offer you a large and up-to-date selection. All of List One is made up of new importations that never before have been offered by us.

Order early to be sure you will get the varieties that you want. We will begin shipping Chrysanthemums about April 20, 1953.
